EU Type Examination Certificate

Date: 2022/01/31 n. 912220501/OE

Validity: 2027/01/30

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	FLYING BATS (pvt), Ltd. Jalal Town Uggoki - SIALKOT - PAKISTAN.
Type of PPE:	Motorcyclists' limb joint impact protector
Category of PPE:	II: "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.
Model	" FB 518"
	col. ORANGE

Description:

MULTI-AREA protector for Shoulder OR Hip for motorcycling and biking/downhill use, completely made of orange partially perforated Polyvinyl Chloride PVC.

This limb joint protector has no fastening system, as it is designed to be inserted in special pockets of motorcyclists' protective garments.

Technical Standard:	EN 1621-1:2012 Motorcyclists' protective clothing against mechanical impact - Part 1: Motorcyclists' limb joint impact protectors: requirements and test methods.
Intended use:	preventive use against mechanical impacts during motorcycling and downhill biking activities. This item must always be properly connected to suitable motorcycling garments and with all other suitable P.P.E in order to ensure the most complete protection of the body.
Size range:	"S/H" (= Shoulder OR Hip) Type B
Technical File:	DC-14449
Test report:	RCT n° 4034919/E

DBD No 0330 E

EU Type Examination Certificate

n. 912220501/OE

Validity: 2027/01/30

Functions and performance levels:

Date: 2022/01/31

To reduce the severity of injuries caused by impacts. The protectors give a limited protection against mechanical impact in case of accidents.

Method: planar face drop striker at 50 J;

Mandatory test: from the values of the transmitted force obtained at <u>standard ambient</u> conditions and <u>after hydrolytic treatment</u> (= wet conditions).

The overall performance level achieved is therefore **level 1**.

Note: The Standard provides 2 performance levels with level 2 meaning the higher performance. The protective functions depend on the correct positioning of the protector, which falls within the responsibility of the user.

Marking:

embossed directly on the protector and displaying the following information:

- CE Marking;
- Registered Trademark + Company's Name of the Manufacturer;;
- item designation (article commercial name + code);
- pictogram for motorcycling use, with indication of the protector type and size
 as well as the overall performance level achieved during laboratory tests + nr.
 and year of the Technical Standard of reference.

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.

The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
